Subject: Follow Up Items re Gun Violence Meeting 8/18
Date: Friday, August 20, 2021 2:19:54 PM

Hello Jim,

Thank you again for meeting with us Wednesday to discuss the administration's response to gun violence. We were glad for the opportunity to discuss the administration's current gun violence reduction efforts. I wanted to follow up from our meeting with a list of the additional information administration staff stated they would provide to Councilmember Gauthier and Controller Rhynhart.

Per the meeting, we would like the following:

- A full breakdown of how the \$155M is being targeted towards neighborhoods being most heavily impacted by gun violence, including:
 - OST Funding and Programming by Council District and ZIP Code;
 - Age group targeted by individual programming;
 - PPR sites hours of operation separated by ZIP code;
 - PPR site staffing levels (current and planned increases);
- How data/intelligence is compiled from different sources and used to hone services/interventions;
- Tactical meeting minutes/reports;
- A by-zipcode breakdown of trauma services being provided, including:
 - School District trauma services by school (Council District and zipcode);
- A full description of the community engagement strategy or plan;
- A timeline for the completion of the CCIP feasibility study.

If possible, please provide this detailed information by August 27, 2021. Once we've reviewed the information, we will follow up with next steps.

In service,

CS
